

## **First Aid, CPR and Health Screening**

The Charter School recognizes the importance of taking appropriate preventive or remedial measures to minimize accidents or illness at school or during school-sponsored activities. To this end, the Charter School expects parents/guardians to provide emergency information and keep such information current in order to facilitate immediate contact with parents/guardians if an accident or illness occurs.

Within the Charter School facilities, a First Aid Kit containing appropriate supplies will be present. First aid will be administered whenever necessary by trained staff members. When necessary, the appropriate emergency personnel will be called to assist.

All teachers are to be certified in adult, child and infant CPR and First Aid and be recertified prior to expiration of certificates. Opportunities for adult, child and infant CPR and First Aid training will be offered to all support staff and volunteers.

### Resuscitation Orders

School employees are trained and expected to respond to emergency situations without discrimination. If any student needs resuscitation, staff shall make every effort to resuscitate him/her. Staff members are prohibited from accepting or following any parental or medical "do not resuscitate" orders. School staff should not be placed in

the position of determining whether such orders should be followed, and such Advance Directives shall not be communicated to staff. The Executive Director, or designee, shall ensure that all parents/guardians are informed of this policy.

### Vision, Hearing and Scoliosis Screening

The Charter School shall screen for vision, hearing and scoliosis as required by Education Code Section 49450, et seq., per appropriate grade levels.

### Head Lice

To prevent the spread of head lice infestations, Charter School employees shall report all suspected cases of head lice to the school nurse or designee as soon as possible.

The nurse, or designee, shall examine the student and any siblings of affected students or members of the same household. If nits or lice are found, the student shall be excluded from attendance and parents/guardians informed about recommended treatment procedures and sources of further information.

The Executive Director, or designee, shall send home the notification required by law for excluded students. If there are two or more students affected in any learning center, an exposure notice with information about head lice shall be sent home to all parents/guardians of those students.

Staff shall maintain the privacy of students identified as having head lice and excluded from attendance.

Excluded students may return to school when reexamination by the nurse, or designee, shows that all nits and lice have been removed.
