

School Visitation And Volunteer Policy

School Visitation

The Charter School encourages parents/guardians and interested members of the community to visit the Charter School and view the educational program. The Charter School also endeavors to create a safe environment for students and staff.

To ensure the safety of students and staff as well as to minimize interruption of instruction, the School has established the following procedures, pursuant to California Penal Code Sections 627, et. seq., to facilitate visits during regular school days:

1. Classroom visits during school hours must first be arranged in writing with the teacher at least 24 hours in advance. If a conference is desired, an appointment should be set with the teacher during non-instructional time, at least three days in advance. Except for unusual circumstances, approved in writing by the Principal or designee, classroom visits should not exceed approximately 45 minutes in length and may not occur more than once per week.

2. Westlake Charter School shall attempt to schedule a minimum of two (2) observation days per school year for parents and students who are considering applying for enrollment. Interested parent and student observers shall be asked to conduct their observations on either of the scheduled days.

3. All visitors must register with the front office immediately upon entering any school building or grounds when during regular school hours. When registering, the visitor may be required to provide his/her name, address, occupation, age (if under 21), his/her purpose for entering school grounds, and photo identification.

For purposes of school safety and security, the Principal or designee may design a visible means of identification for visitors while on school premises.

4. The Principal or designee, may refuse to register a visitor if they have a reasonable basis for concluding that the visitor's presence or acts could: disrupt the school, students, teachers, or other employees; could result in damage to property; or could result in the distribution or use of unlawful or controlled substances.

5. The Principal or designee may withdraw consent to be on campus even if the visitor has a right to be on campus whenever there is reasonable basis for concluding that the visitor presence on school grounds would interfere or is interfering with the peaceful conduct of the activities of the school, or would disrupt or is disrupting the school, its students, its teachers, or its other employees.

6. The Principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or revoked, promptly leave school grounds. When a visitor is directed to leave, the Principal or designee shall inform the visitor that if he/she reenters the school without following the posted requirements he/she will be guilty of a misdemeanor.
7. Any visitor that is denied registration or has his/her registration revoked may follow the dispute resolution policy #08-03.
8. At each entrance to the Charter School grounds, signs shall be posted specifying the visitor registration is required.
9. No electronic listening or recording device may be used by students or a visitor in a classroom without the teacher's and Principal's written permission.

Penalties

1. The Principal or designee shall seek the assistance of the police in dealing with or reporting any visitor in violation of this policy. All offenses incurred under this regulation will be reported to the local police.
2. Pursuant to the California Penal Code, if a visitor does not leave after being asked or if the visitor returns without following the posted requirements after being directed to leave, he/she will be guilty of a crime as specified which is punishable by a fine of up to \$500.00 or imprisonment in the County jail for a period of up to six (6) months or both.
3. Further conduct of this nature by the visitor may lead to the School's pursuit of a restraining order against such visitor which would prohibit him/her from coming onto school grounds or attending School activities for any purpose for a period of three (3) years.

School Volunteers

The school recognizes that all volunteers of the school are visitors. Therefore, the pronouncements above regarding School Visitors apply to all Volunteers. Additional pronouncements include:

1. The classroom teacher has full discretion as to the use of volunteers and the time and duration of in-class volunteer participation.
2. Classroom volunteers are there to benefit the entire class and are not in class solely for the benefit of their own child. Classroom volunteers must follow the instructions provided by the classroom teacher or aide. Classroom rules also apply to parent volunteers to ensure minimal distraction to the teacher. If a volunteer is uncomfortable following the direction of the teacher or aide, the volunteer may be asked to leave the school.

3. Information gained by volunteers regarding individual students (e.g. academic performance or behavior) is to be maintained in strict confidentiality. Questions or comments concerning a child's academic performance or behavior must be done in a separate meeting between parent and teacher, as arranged with the teacher. Student discipline is to be left to the teacher, even for a parent volunteering in their child's classroom, with the exception of light reminders to students to stay on task.

Classroom volunteers can be extremely helpful to our teachers and valuable to our students. We thank all those for their willingness to volunteer in this manner.
